Our Ref: ARR- 2019-20/APERC - December, 2018

Date: 20-12-2018

To
The Secretary,
APERC, 11-4-660, Singareni Bhavan, Red Hills,
Hyderabad - 500 004. (commn-secy@aperc.gov.in)

Sir,

Sub: ARR 2019-20 - Certain Suggestions - Reg.

Please consider the following suggestions on the subject matter.

1. It is observed that the Discoms have projected higher estimation of requirement of electricity for the year 2019-20. Going by the previous trend of Discoms projections, Hon'ble APERC approved figures and actual for last five years, the issue need critical examination before according approvals. Similarly, the projected availability needs to be verified with reference to the maximum possible yield from the generators and precise estimation of renewable energy generation. This will benefit the electricity consumer.
2. It is aware that the AP Discoms and AP Transco have allowed AP Fibre net to install the equipment and utilise the facilities (electricity, water, accommodation for operators, services of dept engineers, etc) in the Sub stations and lines. In this context, I request the Discoms to provide me a copy of agreements with terms and conditions thereof for utilising the infrastructure of Discoms.
3. I request the Hon'ble Commission to instruct the Discoms to place on their websites, the decisions of CGRFs along with all case material for guidance of the public. This will also help in capacity building of Discoms' own staff thereby, the repetitive nature of complaints can be avoided and properly dealt.

Yours truly,

B.N.PRABHAKAR (Prabhakar@yahoo.com)
